

HVAC Distributor Checklist

Jersey Central Power & Light

Have you used the site validation tool to confirm site eligibility? Yes No

[Customer Validation Tool - Index](#)

What kind of HVAC Systems are being replaced? _____

- *If a chiller is being replaced, please confirm that it is for space cooling only.*
- *If a chiller is for process cooling, it will go through the Custom program and a pre-inspection will be required.*

How many units are you replacing? _____

How many units are you purchasing? _____

JCP&L offers an incentive for a one-for-one replacement. If you are replacing with more than one unit, please request guidance from your distributor on how to proceed.

Do you plan on installing the new units within the next 30 days? Yes No

If the new units will not be installed within 30 days, what is the timeline for installation?

If installation will occur after 60 days, please reach out to the program team prior to the 60-day mark to formally request an exception and provide reason for the delay.

Have you confirmed the equipment meets the minimum efficiency requirements? Yes No

Helpful Hint: *All projects are subject to post-inspection. The incentive will not be paid until the installation is complete. Checking in with the customer prior to post-inspection to confirm installation is complete will improve the efficiency of our payment process.*

For commercial, industrial efficiency programs, please visit <https://bizsolutions.energysaveNJ.com/>. First Energy's New Jersey Utility, their parent subsidiaries, employees, affiliates, and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of any Program Ally.

Disclaimer: FirstEnergy's New Jersey utility provides a Program Ally listing as a courtesy to customers, but does not approve, recommend, endorse or otherwise promote any Program Ally, vendor, manufacturer, distributor, contractor, or any other provider of products and services that could potentially qualify for FirstEnergy's Energy Efficiency programs. FirstEnergy's utilities and TRC provide this list of independent contractors as a convenience for customers seeking assistance with energy savings-related products and services. Participating contractors are independent and are not affiliated with FirstEnergy, its utilities, or TRC. Customers are solely responsible for dealing directly with contractors in all aspects of their interaction including, but not limited to the definition of the scope of work, costs, contractual terms and conditions, and the level of accuracy required when estimating energy savings.

Costs of these programs may be recovered through customer rates in accordance with New Jersey law. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit energysaveNJ.com.

JCP&L's energy efficiency programs are administered by TRC, a third-party implementation specialist that helps homes and businesses save energy.
