

ENGINEERED SOLUTIONS PROGRAM GUIDE

The **Engineered Solutions** Program is designed to help commercial and industrial (C&I) customers implement cost-effective energy efficiency projects with expert support, flexible services, and enhanced incentives.

Engineered Solutions Tier I

- Implements cost-effective, comprehensive efficiency projects through expert-guided services

Save an estimated **20%-60%** on the project cost

Customers can receive incentives that reduce the project payback period by 6 years to no less than 3 years

Engineered Solutions Tier II

- Designed for large C&I customers
- Supports multi-measure energy-efficient projects

Up to **60%** of project cost covered

Up to **80%** for income eligible multifamily

Energy savings with incentives for:

Lighting	Up to \$0.50/kWh
Electric HVAC	Up to \$2.50/kWh
Electric Other	Up to \$1.00/kWh
Natural Gas	Up to \$20/therm

STEP 1:

Contact a certified Program Ally to help you and check your eligibility for the program

STEP 2:

Get pre-approved to begin the process for evaluating energy-saving measures

STEP 3:

Perform an energy audit with your Program Ally to identify cost-saving opportunities

STEP 4:

Implement changes to improve efficiency and lower operational costs, with incentive payments being released along the way

STEP 5:

Confirm upgrades and save on your energy bills, with final incentives to be released

Customer Participation and Support

Engineered Solutions Tier I

Who should participate?

- Qualified MUSH (municipal, university, school, and hospital customers)
- C&I, multifamily, and non-profit customers in underserved areas (OBC, UEZ, OZ) >200,000 kWh in first year project savings
- At least two energy efficiency measures
- Projects must pass NJ Benefit Cost Test

An approved **Program Ally** will help with:

ASHRAE
Level II
Energy Audits

Engineering
Design

Construction
Administration

Bid
Support

Commissioning

Measurement
and Verification
(M&V) Services

Engineered Solutions Tier II

Who should participate?

- All C&I buildings including qualified MUSH 200,000 kWh in first year project savings
- At least two energy efficiency measures

An approved **Program Ally** may help with:

ASHRAE
Level II
Energy Audits

Engineering
Design

Construction
Administration

Bid
Support

Commissioning

Measurement
and Verification
(M&V) Services
